In 1977 – 1978 he wrote his first book in Numerology with a Hindu Astrologer-Numerologist. A lifetime of research in Medicine and Philosophy, studies of ancient scriptures enabled him to find energetic connections between Numbers, Planets, Colours, Gems, Organs and Body functions, which allows him to find ideal answers even to the most acute problems. Already in the early seventies he was a member of the Foundation for the study of cycles.

You probably know that insurance companies use probability tables to calculate risks and be successful. PRACTICAL Applications (this is the most important part)

We discuss the particular energetic implications of the birthday of 2 or 3 participants (this allows you to understand the personality and potential of the persons involved).

We show you systematically how to proceed so that you will be able to apply our method. We tell you what is implied and most of all WHY.

We teach you to determine and find

- the luckiest days of the month for short term decisions – obviously also to pinpoint the days where your chances are less good
- the lucky, neutral or unfavourable years in which cycle are you now and how it was a few year ago
- your ideal partner (whether privately or professionally, you will find whose personality is harmonious to yours, and which one not, who is helpful or not whether in the short term or long term. You will see in which aspect of life, material, emotional or spiritual a person completes your potential
- bank account numbers, number plates, addresses that are more favourable
- how you can adjust your name or that of a product or business to make it luckier
- we can also select a lucky stone for you in the price range of your budget and select it radiesthetically
- how to improve the harmony with your current partner. You can also ask questions which I will answer, backed up by a lifetime of experiences
- to select 2 or 3 essences which increase your energy potential in life

Normally after doing this for 2 or 3 participants, I request the audience to divide themselves in groups of 3 or 4 people, so that one person makes these selections for another with the other 1 or 2 persons looking on. We then correct those exercises.

I am open to suggestions, and if necessary I can do personally more discussions of birthdays. Usually I give the seminar in English, French, German or Spanish (languages I speak perfectly) according to the place where I am. I would also be willing to hold seminars in other areas of the world, speaking in English and having then each sentence translated in the language of the audience.

This has both a disadvantage and an advantage.

- disadvantage: it takes more time
- advantage: you hear already the information in English and afterwards again in your own language

According to the amount of participants, if I have to discuss personally more cases, we need more time.

Besides the above program we will discuss the importance to protect your Aura from all kinds of negative influences like electromagnetic stress and negative vibes from living and deceased persons as well as astral influences) and test a few participants.

According to availability of time I will answer questions concerning general health problems, and health problems of some participants if they request so.

You will understand that some countries are far away from Europe; this involves heavy travelling expenses-flight and hotel accommodation. It takes at least 36 hours by the time I leave, flight, arrival, settling into hotel, most of all the jet lag requires at least a week to adjust for sleep and activities in both directions. This is why there has to be a firm commitment from the organizers as well as the interested parties with an advance payment when booking an event. The person(s) organizing my venue and myself will appreciate your early registration and deposit confirming your participation. Once a date for a seminar is selected and in order to stimulate more interest for the seminar we could hold every day, during 5 to 6 days prior to the seminar small conferences of one and a half hours; tea parties, informal meetings of even small groups of 15 to 20 persons so that a maximum of persons may understand and appreciate the potential offered by participating in this seminar. Dr. Ghyssaert will also be available professionally for individual consultations between the day of arrival and departure. The best is you come to a conference or informal group meeting so that you may discuss briefly with him your health problem and he may suggest one or other therapeutic programs

We will appreciate that you post this program on your facebook wall and website, make copies of this program and give it to friends and colleagues.
